- More than 100 SP in one job – 10 %

These volume discounts apply for repeated co-operation (min. 4 jobs).

Price list key

1 standard page (SP) is defined by the Czech technical standard for typescripts as 1 800 characters (30 lines of 60 characters)

To calculate in MS Word: Tools – Word Count, Characters (with spaces) divided by 1800 = number of SP

The final job size (number of SP invoiced) is always determined by the target text, i.e. translated or proofread text.

We are VAT payers.
